Towards Future Traffic Safety Research

Towards Future Traffic Safety Research

Edited by

Hector MONTERDE i BORT
Diego MORENO RIBAS

1. WELCOME on behalf of the 20 th ICTCT Workshop organisation (H. Montere i Bort):.....	12
2. WELCOME on behalf of the International Co-Operation on Theories and Concepts in Traffic Safety (ICTCT) association (C. Hydén):.....	14
3. WELCOME on behalf of the Official Professional Association of Psychologists in the Valencian Autonomous Community (V. Esteve Biot):.....	18
4. WELCOME on behalf of the Spanish Traffic General Directorate (DGT) - Ministry of Interior- (A. Ocampo Sánchez):.....	20
5. Risk Homeostasis Theory and Its Implications For Road Accident Prevention (G.J.S. Wilde)	23
6. The Risk Homeostasis Theory: Accept, reject or modify? - An Opposition to Gerald Wilde's RHT (T. Vaa)	42
7. The role of transport research centre in HUMANIST - Centre of excellence programme (K.Schmeidler)	58
8. Driver Interaction with Transport-Telematic Systems (C. Kaufmann, R. Risser, A. Geven & R. Sefelin)	72
9. Evaluation of SASPENCE Driver Assistance System (M. Alonso, J. Plaza, H. Vega, A. Várhelyi & E. Adell)	92
10. Behavioural Indicators of the Impact of IVIS Use on Driving (Z. Simonova & M. Bernhard)	101
11. Developing Attitudes to Road Safety in the Course of Driving Instruction (H. Antikainen).....	110
12. Evaluating the Benefits of Road Safety Research: The Case of Sweden (R. Elvik, M. Kolbenstvedt, B. Elvebakk, A. Hervik & L. Bræin).....	116
13. Development of A Risk-Perception Scale Applied to Flight Safety (H. Montere i Bort & D. Moreno Ribas)	130
14. Perception of Brazilian Youngster About their Possibilities to Contribute to the Traffic (A. Bianchi, I.P. Thielen & M. de Cuffa)	155
15. How Expensive Are Traffic Casualties in Spain and Why they Seem Much Cheaper than in Other Countries. Lessons For Other Safety-Developing Countries (J. Monclús, A. Aragón, D. Razazi, A. Gómez & F. Aparicio).....	165
16. Risk Perception and Motorbikers. Simultaneous Risks: Theoretical Questions (P.R. Mangili, I.P. Thielen, A. Bianchi & D.P. Soares).....	183
17. Evaluation of Support to Children Restraint Equipment in Brazilian Cars (A. Bianchi & E. Todt).....	193
18. Thirty years of Traffic Safety Research: A personal retrospective of Concepts and Methods (H. Gstalter & W. Fastenmeier)	198
19. Applications of a New Tool in Driver Task Analysis (SAFE) (W. Fastenmeier & H. Gstalter)	209
20. Video-Recorded Accidents, Conflicts and Road User Behaviour: A Step Forward in Traffic Safety Research (R. Van Der Horst)	224
21. Conflict Observations in Genk, Belgium: a Pilot Project (M. De Jong, G. Gysen, S. Daniels & A. Petermans).....	240

22. Methodological Procedures of Measuring the Effectiveness of Road Safety Education and Information Measures. Results of a systematic review of 36 international studies (I. Utzmann & J. Gerlach).....	248
23. National States, Regions and Local Governments: Association and Competition. How can safety be taken into account in such complexity? (D. Fleury).....	257
24. Documentation of Road Safety Deficits (J. Gerlach & T. Kesting)	281
25. Road Safety Research and Education in Israel (A.-S. Hakkert & T. Lotan).....	297
26. Road Users' Receptivity to Fear Appeal: Evidence-Based Contra-Indication (H. Katteler)	308
27. Accessible and Safer Pedestrian Environment: Four Years of Belgrade Experience (D. Bazik & J. Stojanovic).....	323
28. Pedestrian Quality Needs: Some Data from a Mid-Size Town (I. Martín de Diego, E. Cabello Pardos, C. Conde Vilda, A. Serrano Sánchez de León & J.M. Rubio)	339
29. The Effects of Roundabouts on Crashes with Bicyclists: Influence of the Design Type of Cycle Facilities (S. Daniels, T. Brijs, E. Nuyts & G. Wets)	345
30. Pedestrians' Quality Needs -Progress of a Systems Approach Project (R.Methorst) ..	359
31. Importance of and Satisfaction with Different Accessibility Factors as Perceived by Older Pedestrians (H. Wennberg, A. Ståhl & C. Hydén).....	373
32. Falls in the Outdoor Environment among Older Persons - A Tool to Predict Accessibility? (A. Ståhl & M. Berntman)	393
33. The Concept of Acceptance (E. Adell)	405
34. The Focus Group Interview - A Qualitative Method to Assess Quality Aspects of the Traffic Systems (K. Ausserer & C. Kaufmann)	415
35. Pedestrian Safety and Behaviour in Urban Areas: Research Findings in Thessaloniki Greece (P. Papaioannou & S. Basbas)	424
36. Bus Humps or Virtual Bumps of Both? (L. Leden, P. Gårder, C. Johansson & P. Rosander).....	438
37. The Senior Citizen's Mobility Seen from the Expert's Eyes: An application of the SIZE-Interview Method in Spain (D. Moreno Ribas & H. Montere i Bort)	447
38. From Black Spots to Grey Road Sections in Road Safety Management - Is it the Right Way? (M. Sørensen)	466
39. Assessment of Traffic Safety and Traffic Injuries in Special Transportation Services Using a Mixed Methods Approach (P.-O. Bylund, A. Wretstrand, T. Falkmer, A. Lövgren & J. Petzäll).....	483
40. Human Machine Interface Research and ITS (M.A.R. Bernhard & K. Schmeidler) ..	493
41. Computer Racing Games, Risk-Taking, and Traffic Safety (J. Kubitzki, P. Fischer, S. Guter & D. Frey)	504
42. Sociological and Psychological Aspects in Road Traffic Accident Data (J.Kubitzki) ..	509
43. Risk Perception Evaluation: Three Different Methods Based on the Traffic Conflict Technique (D.A. Egea Caparrós).....	515
44. Anthropology of Road Safety: the Human Factor (A. Aragón)	530
45. FAREWELL (C. Hydén)	539
46. What is ICTCT?	541
